

1. Switch off the power.
2. Fix the bracket into the ceiling.
3. Lift up the fixture until it reaches the bracket.
4. Let the power cord pass through the side hole and then connect it onto the terminal correctly. If rubber plug is used instead of water-proof connector, seal the puncture with glue to prevent water coming into fixture.
5. Hook the metal cord between LED diffuser and the base housing. Connect the output (DC) cables. Install the LED diffuser on the base housing, then lock the fixture with clips.
6. Switch on the power.

Maintenance

1. Cut off the main power first
2. Don't touch LED while maintaining or cleaning
3. Don't use chemical reagent to clean lamp.

Environmental protection: waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

Caution:

1. The product must be installed by professional technicians and power supply must be cut off before installation.
2. The diameter for AC input wire is 0.75mm² (complying with 60245 IEC57), which complies with the latest IEE electrical standards or national standards.
3. Do not touch the electronic circuit and its components.
4. Contact an authorised technical service centre for any repairs possibly required use only original spare parts.
5. Do not touch LED while installing or maintaining.
6. Sealing the entrance hole with glue after install is needed.
7. The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

OPERATING MANUAL

Kronus - Basic

Important: Please read the instruction manual carefully prior to installation and keep it for future reference.

Mounting: Damp environments or places where there is smoke and dust.

Light brief features:

Ra: >80

Life Time: 5 years

Light Source: LED SMD2835

Input:220V-240V 50/60Hz
